

POLYMERIZATION TREATMENT PROCESS

Stone & Marble

RK MARBLE
CREATING lasting Impressions SINCE 1989

Being a pioneer with over 3 decades of experience in the stone industry, we take pride in our expertise of sourcing nothing but only the best quality blocks from finest of the quarries across the world. Sourcing superior grade stone from enriching regions globally is in line with our vision to deliver products meeting international quality standards.

Sourcing of high quality blocks minimises the processing requirement. As a standard practice, we apply superior grade woven roving (WR-600 GSM) Fibre Net with the help of Tenax Marble Glue for block reinforcement.

The application of high quality Fibre Netting ensures seamless end-to-end cutting of blocks into slabs with impeccable precision and uniformity. To not just meet but exceed expectations, we also provide customizations for thickness above 20mm in accordance with the requirements of our clients.

Right when we get into the Polymerization process, the special glass fibre is applied carefully on each of our stone, slabs, which further provides an enhanced protection against mishandling during logistics.

Each slab undergoes a detailed examination at our state-of-the-art Polymerization Treatment Plant. The integration of our fully automated robotic arms and equipment with cutting edge technology facilitates thorough scanning, processing, intensified-heating, polymerization and application of epoxy resin.

Our high-quality epoxy with low viscosity penetrates deeper into the finest of pores and veins through vacuumization process, which brings our exclusive marble back to its original form.

The entire processing procedures are initiated and executed under the supervision of our in-house experts for identification of minor flaws to ensure only the best quality products reaches our clients. All slabs are assessed and inspected exclusively by our Stone Consultants.

EXPER1ENCE ONE

A1/ B Mayapuri Industrial Area Phase - 1, New Delhi - 110064,

Tel: +91-11-47046381, +91 91191 18118

WAREHOUSE

42nd Milestone, Delhi-Jaipur Highway, NH-48, Sector-77, Gurugram,
Haryana - 122004, Tel: +91 73004 40001

Corporate & Sales Office: Madanganj - Kishangarh - 305 801, Distt. Ajmer (Raj), India.
